What: „POD ŚWIATŁO” („Against the light”) – Exhibition – artistic fabrics by Izabela Zalewska-Kantek – the opening day. The exhibition will last till 25th September.

Izabela Zalewska-Kantek – a landscape architect, painter and social activist. Her observations of nature and thoughts expressed with the aid of Batik technique and painting on silk.

Both techniques don't appreciate any corrections – just like in life. One has to take full responsibility for each move and mistakes have to be treated like development stages.

While being viewed Against the Light, her paintings take a different meaning.

The title of exhibition underlines the unusual feature of techniques used by an artist. Most often her paintings are being inspired by the world of plants, which assist her in every day work while designing garden and organizing horticultural workshops.

President of the Viridarium Foundation engaged in a public domain activity, horticulture, in particular the organization and promotion of educational garden for children. The laureate of IDEA CAMP 2014, a grant of The European Cultural Foundation from Amsterdam.
